

Union Construction Workers' Compensation Program

Thank You A *BILLION* Times Over

Dear Members and Supporters,

The Union Construction Workers' Compensation Program's participating payroll of union trades workers reached a milestone at the end of 2015: **\$1.14 Billion Dollars!**

In 1997, we began with four contractors and \$24 million in participating payroll. Today, 350 contractors employing 20,000 union trade workers are participating.

Though the Program has changed in size, its mission hasn't: Together, we make workers' compensation work right for Minnesota's union construction industry.

On behalf of the Board of Trustees and UCWCP staff, thank you for your continued support!

UCWCP.COM ENHANCEMENTS

EXCLUSIVE PROVIDER ORGANIZATION

1. Searching for an Occupational Medicine (primary care) clinic by radius from a zip code, city, address or combination. The clinics are plotted on a Google Map to allow for easier access to the closest clinic.
2. Detailed information listed for each primary care clinic on: types of drug testing performed; whether walk-in appointments are allowed; and daily hours.

NOTE: Many clinics REQUIRE the contractor to preregister before sending an injured worker for post-accident treatment. Please research the particular clinic before sending your injured worker if you have not used the clinic before.

Additional changes:

- The site no longer requires Registering, or logging in
- New navigation menus allow faster access to information
